

Adopt A Grave.

Easton has 4 abandoned cemeteries that need funds to restore and maintain many headstones. With your help this can be done. Restoration will begin with the Center Street Cemetery and over the next 5 years will continue with the 3 additional Town cemeteries. Den Road, Lyon and Gilberttown.

What is Adopt a Grave?

Adopt a Grave is a senior center Project in which individuals, organizations and businesses may adopt a burial plot to support the preservation and upkeep. Donations will contribute to improvements and hire contractors necessary to perform different tasks as required.

How can You be A Part of Adopt A Grave?

With a contribution of \$50 or more you can sponsor a grave. You will be issued a certification with a picture of the headstone and a map showing the location in the cemetery. In addition, you will be given a brief history researched by our professional geneologist. You may also wish to collect additional information on your own. At this time you may stop in the center and pick up a gravesite of your choice. Your responsibility will be to visit your gravesite periodically and make sure it is looking "cared for" and inform us of any problems you notice. If you are unable to contribute \$50 or more, any small donation is greatly appreciated and will go into our cemetery fund for the purpose of resetting stones, materials, and treatments, in addition to overall preservation. Sometime in the next two months, a day will be set aside to meet as a group to clean and beautify your gravesite. We will have a picnic lunch and talk about our progress.

Please make your tax deductible donation payable to: The Easton Senior Citizens' Center Inc.

650 Morehouse Road
Easton, CT 06612

This is a 501 (c)(3) organization

Thank you for your support for this worthwhile project,
Val
